NON-THOROUGHBRED REGISTER

(Russian NTR)

Horses are published in this Register on the basis of the following Rules and Regulations of the Russian Non-Thoroughbred Register.

The Register is compiled in accordance with “Article 13 – Register of Non-Thoroughbred Horses”, of the International Agreement on Breeding, Racing and Wagering to which the Russian Stud Book is signatory:

RULES AND REGULATIONS

OF THE RUSSIAN NON-THOROUGHBRED REGISTER

A: QUALIFICATION

1. Definition

1.1. Russian NTR is the Register of Thoroughbred type horses, which do not qualify for acceptance in the Russian Stud Book at the time of registration.

1.2 Russian NTR is kept to enable the promotion of horses to Thoroughbred status using the ‘eight Thoroughbred crosses’ process, subject to the final approval of ISBC

1.3 Racehorses recorded in the Russian NTR have permission to race in the Russian Federation both against other NTR horses and against Thoroughbreds.

1.4 Russian NTR operated by the All-Russian Research Institute for Horse Breeding as the keeper of the Stud Book and compiled to the same format as the Stud Book volumes.

2. Acceptance of broodmares and stallions in the Russian NTR.

2.1. A covering and/or a foal resulting from or produced by the processes of Artificial Insemination, Embryo Transfer or Transplant, Cloning or any other form of genetic manipulation not herein specified, shall not be eligible for recording in the Russian NTR.

2.2. Horses that are published in a foreign NTR can be included in the Russian NTR with the agreement of that country’s Stud Book Authority.

2.3. Mares or stallions which are the product of seven consecutive Thoroughbred crosses, and which ISBC have unanimously agreed that the produce of which, when mated with a Thoroughbred, may be considered to have Thoroughbred status. Such stallions or mares can be indicated as **Vehicle horses** in an Addendum to the Register with a reference to the date of the ISBC meeting at which approval was granted.

3. Conditions for recording foals in the Russian NTR.

3.1 In order a foal to be recorded in the Russian NTR, either the sire or the dam must be a Thoroughbred at every cross.

3.2 The conditions for recording foals out of broodmares registered in the Russian NTR are identical to the conditions contained in the Rules and Regulations of the Russian Thoroughbred Stud Book.

4. Promotion of horses from Russian NTR to the Russian Thoroughbred Stud Book.

4.1. Procedure

4.1.1 A horse may be promoted from the Russian NTR to the Russian Thoroughbred Stud Book only when the following conditions are satisfied:

4.1.1.1 the pedigree of the horse demonstrates eight Thoroughbred crosses consecutively including the cross of which it is the progeny,

4.1.1.2 the pedigree of the horse contains animals which can show such performances in races open to Thoroughbreds, in both the Thoroughbred and non-Thoroughbred sections of its pedigree, as to warrant its assimilation with Thoroughbreds.

4.1.1.3 the promotion is approved by the unanimous agreement of the International Stud Book Committee.

4.1.2. Details of any promotion must be published in an Addendum to the Russian Stud Book, with the both references to the date of ISBC meeting and the decision on the basis of which the promotion was granted.

5. Publication

5.1. The Russian NTR will be published on a regular basis as a part of Russian Stud Book volumes and/or Supplements.

B: DISQUALIFICATION

Modification of the heritable genome of a horse recorded in the Non Thoroughbred Register (or for which an application has been made for acceptance in the Non Thoroughbred Register), during its conception, gestation or at any stage thereafter in its existence, will result in that horse permanently forfeiting its right to be recorded in the Non Thoroughbred Register.
